THE ESSENTIAL YEAR REPORT...

At the turn of the 21st century, there were 6 billion people on Earth. No two of them were born on the exact date, time and place - everyone has a unique horoscope. This horoscope reflects personal characteristics that the individual has chosen to work with in this life. He or she meets parents, brothers and sisters, friends, teachers and finally partners, who evoke an evolutionary development for the soul.

Each individual has then a unique life that can be mapped astrologically according to the planetary movements after birth. World of Wisdom's Essential Year Report synthesizes three astrological methods to map the life journey of the individual:

- Progressions, which reflect a personal evolutionary, or karmic pattern present at birth
- Transits, which reflect collective trends that evoke specific behavior in the individual
- Solar Returns, which are horoscopes calculated for each birthday, showing what happens to the individual on the year in question. (For unknown birth times and yearly horoscopes starting on days other than your birthday, another astrological technique horary is used.)

This synthesis is complex. With 12 signs, 12 houses and 10 planets (with Sun and Moon) there are 1440 simple combinations. When the connection between planets are taken into consideration (aspects) and then transits and progressions, there are several hundred thousand combinations. Essential Year Report works on several thousand of these, the rest needs to be filled in with your memory and creative visualization.

This reading describes your own evolutionary journey. To understand it fully you need to understand the talents and challenges that the planetary positions at birth represent. The first part of every section of Essential Year Report explains therefore what you can expect in life based on who you are as a person. It is crucial to realize that what happens during the course of the life is constrained by these personal factors. If your love-life promises great happiness, then later trends will trigger this potential... and vice versa.

If you wish to know more in detail about your personal character and how to get the most out of your life, then our Birth Horoscope Interpreter will go into this deeply. The Essential Year Report is designed to map out the timing of events and the fulfillment of your destiny.

INTRODUCTION

As you enter your 81st year, there is a sense that limitations are crowding in on you. Whilst you have built up strength and resilience during the course of your life, the same kind of problems continue to appear. Challenges now have a lot to do with how you maintain security in all areas of your life. Dealing with a sense of material insecurity and self-worth concerns are lifelong issues for you, and you need to take care that this does not result in you clinging to what may be familiar but is now outdated. Adapting existing structures to new times brings success. These challenges have a lot to do with a latent insecurity that you feel when you try to let go of inhibitions and perform. A lack of playful support and appreciation when you were young, means that you feel clumsy in romance, nervous about expressing creativity, and too formal in relation to children. Yet in time you overcome all these blockages by sheer effort. Slow and steady wins the race, so it is the usual recipe of hard work and determination that works. At the same time you are profoundly aware that in your journey down the river of life the ocean is approaching. There lies the promise of spiritual fulfillment, as well as the fear of the dissolution of everything you have worked for. Only spiritual values count now, but the material world still makes demands.

The process of attaining success during the current year depends on the one hand on how well you build upon early experience and on the other on formulating your vision for the future. Once you have a vision, you can plan how to achieve it step by step. An optimistic attitude and belief in yourself will help you to overcome the challenges that naturally arise during the course of the year.

In this period of your life strategies for consolidating your earning power and getting paid what you are worth begin to succeed, though it can be hard going. Money is in short supply, but now is the time to put in place an economic framework that will give you security well into the future. These new influences started growing around March - 2020 and will ebb out around March - 2024. At the current time you know what your talents are, but you may be unsure whether you can live from them. You can. But you still need to conserve your resources and economize. Part of the key to prosperity is self-worth, and whilst success is as yet unproven you can facilitate the process by being restrained in your economic demands until you have established a firm foundation.

Once you have learned how to capitalize on your unique resources and gain confidence and self-assurance, you need to reach out to others between February - 2022 to March - 2023. This leads to travel and an expansion of your skills educationally. This is a great year to widen your network of contacts. Through increased communication on all levels, you learn how to make sure-footed progress.

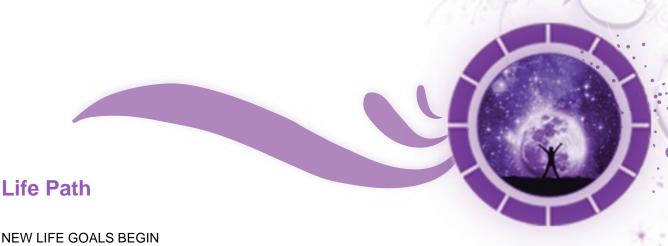

Having developed your education and communication skills, and widened your network of contacts through travel, there is an urge to expand your influence and potential on the home front between March - 2023 and July - 2023. This brings insight and good fortune connected with property and family. At this time you broaden your emotional foundations, partly because you gain understanding of the influence of your upbringing, and partly because you are curious to learn more about how to create a nurturing and stimulating environment for yourself and those near to you.

As you mature, acquire new resources and meet and overcome the challenges that present themselves, the stage is set for a series of developments and opportunities during the age of 81. Three very important issues that make this year special are:

- A fortunate period begins in your domestic life, signaled by happy events in the family or a move to more spacious accommodation. You now have the surplus emotional energy to provide shelter for those dear to you.
- A time that awakens a new mental sensitivity and interest in the arts, film and all areas of the imagination. It can be difficult to persevere with boring work, studies and other projects at this time as you long for some other kind of stimulation.
- You can expect extremely positive relationship developments. Love and romance will be consolidated into

your life structure, and relationships established or confirmed through, for example, marriage. Sharing resources brings economic plenty.

These along with other influences will be examined later in the report.

NEW LIFE GOALS BEGIN

There are many spheres of human activity which are active at any one time, but each year there will be a focus on a particular area of your life that will absorb you more that anything else, and be at the center of the events of that year.

There is a suggestion that you are in a transition process in your personal life this year, as you wind up interests connected with the past and investigate future potentials.

This transition process could for example be connected with fatigue in self-promotion and egocentric focus, leading to an urge to integrate with others on an equal basis in a spirit of service for a greater good than your own. The general trend is from self-absorption to service.1

The theme at the age of 81 is to create a strong sense of identity through self-expression and the projection of your identity onto the world stage. You are willing to take a greater risk to gain recognition and acceptance, and invest more energy and charm in developing and expressing personal charisma. This in turn paves the way for creative breakthroughs or important romantic experiences which bring a celebratory quality to the months ahead.2

This theme channels the unique and revolutionary sides to your nature - your desire to go against the establishment and do things in your own way. This can bring travel or restlessness, and stimulate a desire to exist on the fringe.3

Expressing the essence of yourself and projecting your personality with warmth and charisma is high on the agenda in the year ahead.

It seems that you have diverging needs and interests, and you may have to pursue more than one avenue of interest at the same time. You will communicate on several different levels with a great variety of people. Being able to learn more, contact people and travel to widen your network are fields of interest that have high priority.

The focus of this influence is in your career, and the big question is how to define your ambitions and attain them. Dealing with leadership and authority is key, and either you must work with existing authorities in an executive position or establish yourself more independently, so that you can achieve concrete goals. If you play your cards right now you will gain success and increased status.

You are empowered by the following.

constantly on the move, and your mind works at a high gear.4

Business and career advancement is on your mind during the course of the year. You develop new ideas for professional growth.⁵

Some factors help.

You apply yourself intensely and uncompromisingly to achieve your agenda. If something does not work, you are prepared to throw it out and start again, but do not throw the baby out with the bathwater. You are able to apply great psychological talent in the pursuit of your objectives.⁶

This specifically activates a need to transform the way you express yourself creatively, and clear up deep seated issues with children or other matters of the heart.⁷

There is tremendous optimism and belief in yourself, and you find favor with influential people who help boost your influence. This cannot fail to bring success and expansion, and a general sense of happiness and fun.⁸

This will be expressed in a psychological transformation process that brings wisdom and insight into unconscious factors.⁹

You have the enthusiasm and energy to take the initiative, and your forcefulness brings competitive success. You are able to express your strength and your erotic power too. An excellent lieutenant helps you make rapid progress in achieving your agenda.¹⁰

This awakens some anxiety and insecurity connected with suppressed anger, intimacy and sexuality.¹¹

There are unique opportunities and challenges affecting you personally right now, which can result in significant lifestyle and relationship changes or modifications. If you would like to see your life going in a different direction, now is the time to take the reins and choose a path which is uniquely suited to you, as described by the influences below.

Establishing the course

In the period from May 2021 to February 2023 there is an urge to stabilize both the direction your life is going and the important relationships in your life. You can't always get what your want, but you get what you need. In accepting this, you recognize the limitations that are an integral part of life, and willingly accept them. Only by having efficient structures on which you build can stable growth take place, and this means making a long term commitment both to a life path and perhaps also a relationship. What works at this time is cultivating an element of conservatism and restraint, concentrating on one thing at a time, and limiting ambitions both in your career and your love life to what is do-able.¹²

Personal and relationship boost

Generally speaking this is a period of expansion and good fortune for both relationships and your personal life. You are infused by optimism, and this is born out by favorable partnership developments. This is especially apparent in the period from February 2023 to May 2023 when things flow smoothly in many areas of your life. Now is the time to go into the world with confidence; you can expect the support of influential people and mentors, and you will find that your own grasp and understanding of events reflects your innate wisdom. Travel is favored and brings you together with people who are good for you. Partners can be encountered abroad or when studying, and they too may be in an expansive phase of their life.¹³

There are times in your life when it is not enough to simply register and adjust to influences that come from the outer world. Sometimes the time comes to change the actual framework of your life. Perhaps this means adopting a new lifestyle or appearance. Perhaps the time has come to redefine who you are through who you choose to live with. The following influence shows a unique opportunity to move your life into another gear.

A loving bond

If your birth time is precise then love and happiness come into your life in the months around July 2022 as you connect with someone whose heart is entirely aligned with yours. If you are already in a stable relationship, this heart-warming experience can be connected with children, or some fortunate event – this is also an excellent time for economic good fortune. As your heart energy is awakened you are able to define your true values and share them with others who feel the way you do. This is a time when you can meet a loving person with excellent taste, and the time might be right for formalizing love through marriage. Sharing your economic resources comes easy now, and results in a material boost too. This is an excellent period for finding new ways of effortlessly earning more money, perhaps by capitalizing on your aesthetic talents and good taste, or through using your people skills. Perhaps it is time to associate with the rich and beautiful.¹⁴

Love for you awakens the desire to be helpful and of service. You find love at this time in your working environment and amongst colleagues.¹⁵

This initial section of the report is connected with your lifestyle and direction, and the factors described above modify this direction as you respond to outside influences and your own inner evolutionary process. Of these factors the most significant during the age of 81 are:

- the need to establish a framework for your life and relationships, which you can do by perseverance and commitment.
- fortunate developments that widen your horizons and enhance partnership. An excellent time for travel and study.
- a time when you meet someone who harmonizes completely with you, leading to happiness and success on many fronts. Marriage perhaps.
- a time of creative expression and extrovert behavior, when you project your identity onto the stage and make an impression.

Every year there is a particular focus on your goals and ambitions, and a need to reformulate your mission in life and what you want to achieve. It is equally important to have a good foundation to build your successes on in terms of home and family.

A major theme as regards career during the age of 81 is concerned with the consolidation of your professional position. You need to nurture your resources, pursuing a grounded policy of careful conservation of what you have. It is an excellent time for money making, especially though finance, food and property.¹⁷

This theme is very much connected to your innate determination to take on challenges and overcome obstacles. Whilst career developments can initially make you unsure, you tap in to your resilience and determination, and achieve the goals that have been set.¹⁸

You are motivated to create career stability and consolidate your financial situation, and this you will do in a specific fashion and in a specific area.

You will find yourself in quite tense situations that require decisiveness and immediate action. Generally it is a good thing for you to take independent initiatives, and if conflict arises, to fight to win.

Certain challenges arise.

One of the major challenges is the readjustment necessary in a climate that is strongly affected by restructuring, which can mean that old friends, partners and colleagues disappear and new ones arrive. There is a likelihood that you encounter people with who there is a tense psychological relationship – it's like meeting your shadow side. Worn-out methods must be eliminated.¹⁹

Some factors help.

One very positive factor that helps you achieve your professional agenda is the sheer determination and hard work that you invest into your goals. Established figures and weighty organizations stand behind you, enabling you to consolidate and make plans for the long term.²⁰

As pressures at work and challenges with colleagues evoke a heavy atmosphere, you need to apply yourself diligently and uncomplainingly in the service of others.²¹

Sometimes a time comes when you can actually make a decisive move that defines your unique career potential and the hopes you have for your family. The influences described below show challenges and opportunities that arise now which can bring concrete changes in the framework of your professional life and domestic environment.

Dynamic initiatives at home and in your career

If your birth time is accurate, the period around August 2022 brings dynamic development in your career, because you are prepared to take a risk and an initiative to get what you want. You relish the competition and are determined to win. You think strategically, identify the opposition and begin your campaign to take the battlefield. Allying yourself with a strong partner brings results. With all the energy you put in to your career in this period, you can hardly fail to harvest success. It is not so much a question of hard work or intellectual attainment – it is more about mobilizing survival instincts and your fighting spirit. Your domestic life is also galvanized by change now, and you take initiatives to move or fortify your home, preferably with a partner who is prepared to fight by your side. This is an excellent time for new initiatives regarding children, especially sons. For example it is a good time to work together with a son. Solidarity is the key word as far as family is concerned.²²

As one of your greatest assets is the will to put in tremendous effort to attain your desires, this influence will invoke the urge to protect what you have and fight to gain more.²³

The career section of this report explains influences in the current year that can cause you to adapt or change professional goals, and make use of opportunities that come your way. Overall, in the area of family and career the major developments you can expect are:

- a time of dynamic movement in your career when you pick up the gauntlet and rise to the challenge, winning new territory.
- a time when you can slowly but steadily increase your resources through consolidation and investment.

WISDOM AND EXPANSION

During the course of the year you will have a number of character-building experiences, which help you grow and develop as an individual. It is rare for any difficulty to last longer than a period of about eight months, and if you regard challenges that arise as a test that helps you become stronger, then it will be relatively easy for you to overcome them. Similarly, when events boost your confidence, it is pays to take advantage of the limited time available to capitalize on your good fortune.

With your sun in your birth chart in Gemini and in the 6th House this relates to your need to communicate, learn and contact others, in connection with your daily working relations, routines and health.

An important feature around the age of 81 is an ambitious urge to take your place in society and assert your natural leadership abilities. Charismatic leaders will inspire you and you will seek to emulate them, expanding your influence and putting your identity on the line in the struggle for career success. This is an excellent time to seek promotion, or even better, to establish your own independent career. You cannot be comfortable with other people telling you what to do now, but you find yourself in the perfect position to tell other people what to do. People look to you for leadership, and it is a responsibility worth shouldering.²⁵

You are empowered by the following.

This is a time when mental focus is important. This means developing your network of contacts, training your skills, educating yourself and generally being on the move. There may be a symbiosis with someone with whom you closely share your ideas and thoughts. Yet clarity is difficult to establish; stress levels are high and you tend to burn your fingers because there are too many irons in the fire. You seem unable to maintain objectivity, and plunge in blindly.²⁶

Some factors help.

It is during this period that psychological issues come to the fore, and you feel a deep inner urge to cast off your old identity and replace it with a stronger and more authentic identity. Though this can mean some traumatic episodes, you cannot fail to emerge as a stronger person. Encounters with people who can handle power effectively can inspire you to access tremendous survival abilities.²⁷

It is during this period that you are able to see things in a positive light and access your reserves of personal confidence and faith in the future. It is an excellent period for joining forces with mentors and intellectual heavyweights, and also for expanding your horizons through travel, cultural expression and intellectual attainment. Efforts are greeted with success now, and if you want something hard enough, you will get it.²⁸

It is during this period that you discover just how enterprising you can be. This is not a time when you wish to be timid. On the contrary you recognize the need to push your own agenda and fight for what is important for you as an individual. You fight your own battles and win. You are enterprising and prepared to take risks. You learn assertion skills and get on in life.²⁹

Certain key influences will present challenges and opportunities to you now as regards you development as an individual. Below you will find effects described, which you will feel more or less powerfully, evoking actions that enable you to stamp your signature on events.

Insight brings influence and success

It is at this time that your insight and understanding peak to bring a sense of meaningfulness and personal satisfaction in life. Travel and intellectual development stimulate your confidence in your self and your abilities, and this has a snowball effect in creating success. You have the good fortune to meet wise people, or mentors, who can guide you into new areas of knowledge and understanding. This is the time to capitalize on your assets – a calculated expansion now will surely bring good results, especially in the period from October 2025 to December 2025. Your optimism is infectious in this period, and people seek you out to enjoy both your humor and your insights. Spiritual interests are also favored as a deeper understanding of the meaning and direction of your life dawns.³⁰

Test of confidence

The focus is on you, your character and your capabilities now... and challenges abound. You cannot rest on your laurels or expect achievements of the past to be a yardstick for the future. This is a time when you have to earn your status through hard work and commitment, because only through delivering what you are capable of over a period of time, and against considerable odds, can you prove your mettle and win approval – both from yourself and others. You may well find that authority figures and institutions do not make things easier for you, but it is no use blindly banging your head against a brick wall, you just need to skillfully apply yourself until a breakthrough takes place. This period of testing and confidence building will last from February 2023 to March 2024 and, although your faith in yourself will be initially undermined, when you overcome the challenges, you will appreciate the strength and resilience that has been evoked in you.³¹

Quite apart from the specific changes that come at the age of 81, you now reach a stage in the process of your personal evolution that enables you to integrate certain character traits that stand you in good stead for the future.

Dependence versus freedom

There is a strong awareness of the profound influence your past has had on your development as an individual around January 2023 when powerful emotions crowd in and place intense focus on your identity. This is a time when you feel rather dependant and need to find refuge in a safe harbor, which could be found in a cozy relationship and strong family bonds. Yet paradoxically you also need independence. Finding a balance between your instinctive need for security, and freedom for personal growth, is a real challenge. Both needs have to be accommodated. People may get clingy because they sense your urge to be autonomous, but the trick is to satisfy the needs of others, whilst maintaining your authenticity as an individual. This is a time when there can be a move, or a development in the family that tests your parenting skills. Learning to handle a new emotional environment brings personal development.³²

As you are a playful soul and deeply involved in creative ventures as well as with children, this influence evokes strong feelings in connection with fluctuations in fortune in these areas, and in relationships where you take a gamble.³³

The personal development section of this report shows influences directly affecting your character, bringing both challenges and personal growth. Of these influences the most crucial are:

- a time when insight into your identity brings influence and success. Mentors help you expand your understanding and travel widens your horizons.
- a time when challenges initially undermine your confidence, but as you apply yourself over time you win through and establish self-respect.
- a time when powerful emotions are stirred as you adapt your individual needs to new relationships and environments.

EMOTIONAL RESTRAINT

You are in an ongoing process of emotional development, and the focus is constantly changing. As your unconscious mind absorbs impressions during the different phases of your life, you integrate greater depth and understanding of yourself and your relationships. There are specific areas of your life where this influence has a particular significance.

With your moon in your birth chart in Taurus and in the 5th House this relates to deep emotional calm and stability, and your emotional nature will express itself playfully especially with children and in leisure periods.

Emotionally the age of 81 can be said to reflect a time when you are more sensitive and receptive than usual, particularly towards the suffering that you see around you. There is a compassionate motivation to alleviate the problems other people are going through, although there are also chaotic conditions in your own emotional life. Creative and spiritual interests bring growth.³⁴

One of the main areas where this influence will be felt is in your intimate life. You feel very vulnerable emotionally because of your needs – both in love and as regards economic dependency – and this can lead to a series of crises which ultimately bring psychological catharsis and emotional insight.³⁵

One thing that you are uncomfortably aware of now is that there are important choices to be made connected with the establishment of security for yourself and your family. This can be concerned with whether to either hold on to the past, or release this hold and embrace new alliances and environments that may be more conducive for future growth.³⁶

You are empowered by the following.

There can be a degree of confusion about what it is you exactly want. You are very sensitive to suggestion and easily led astray or confused. Whatever it is you think will make your secure, turns out not to do the trick. As a result you learn that security can only be guaranteed when you find it within.³⁷

This activates a need to negotiate complex emotions connected with sharing, and find a deeper spiritual meaning in your sexual life.³⁸

There is great dynamism and activity, but you are emotionally on edge and your temper short. There is a fierce protectiveness in connection with the family, and you are willing to take risks to establish a better domestic situation... which can result in fraught nerves. Family rivalry can make you feel vulnerable.³⁹

There is optimism, happiness and expansion in your family life, perhaps through children or favorable developments with property. Your mood is generous and expansive, but one thing that can upset you is injustice, and you express your feelings passionately about this. Travel with the family is on the cards.⁴⁰

Some factors help.

You are really able to communicate well and congruously at this time, expressing your feelings authentically and somehow capturing the imagination of those you create contact with. A wonderful time for enrolling people in your ideas, and nurturing the minds of the young.⁴¹

During the year ahead you continue a trend of consolidation and work on building stable rhythms that make you and those who are dependant on you more secure and content. Building up economic strength is an important value now, and any extra money you earn is invested carefully, though it is also a high priority to acquire material items that increase your comfort and enjoyment. The simple pleasures of a good meal or an enjoyable sex life remind you of your blessing. You are discovering the joys of sensuality and all the pleasures the body can bring, and at the same time you are creating fertile soil for later growth.

Whilst you are still in a very domesticated period, with your emotional energy focused on your family, child-rearing or home building, there is a change of emphasis around August 2022. At this time there is an urge to let the family look after its own problems and to make more of a celebratory splash. In other words you want to express yourself more creatively, and evoke creative behavior in others dear to you, like children. This is a time when you are inclined to romance, with everything romance brings... more sex, partying, music, dance and play. You need to learn to live life to the full as a well-rounded human being, and build up greater confidence in your performance.

As you grow and mature emotionally, the focus shifts from one area of life to another, and you instinctively absorb the lessons connected with the many different emotional facets of your life.

- Around March 2023 the karmic clock strikes twelve and a framework is established that establishes the structure of your emotional and family life for years to come. There is a profound awareness of the passage of time and personal goals. In many ways this is a challenging and frustrating period, and you are aware that choices made now may be carved in stone, so you proceed cautiously before making decisions that commit you to a course of action. This is a time for shouldering family responsibility and consolidating your position.⁴²

The challenges and responsibilities in this respect are related to your inherent uncertainty in self-expression, which can create creative blocks and evoke specific problems with children and in taking risks in love.⁴³

The influences described below will have an even more profound effect on your emotional life, awakening a powerful and often unconscious response. Ultimately this brings insight into your early conditioning and enables you to modify the way you instinctively react.

Expansion in the home

A twelve year cycle starts around the period from July 2022 to May 2023 – assuming your birth time is reasonably correct – when good fortune on the home front brings a happy time in the family and a sense that you can enjoy and appreciate the ground on which you stand. On the one hand this can be connected with happy developments in the extended family, whilst on the other it springs from an inner emotional satisfaction based on a deeper understanding of your heritage. This is an excellent time for moving to larger property which gives more space and freedom, or for expanding already existing premises. This is also a fine time for travel and residence abroad.⁴⁴

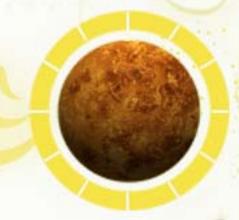

Emotional Responsibility

This is not the time to expect everything to go your way as regards your emotional relationships – particularly in the home and family. You are painfully aware of your insecurities, but nobody is offering a

helping hand. The answer is to develop self-sufficiency. Rather than making demands on others, shoulder the responsibilities that are expected of you. The more mature and persevering you are, the better you will feel. This challenging period emotionally lasts from January 2022 to February 2023. At home you may have to accept a lack of space or a difficult atmosphere for a while. Make do with less. Elsewhere you may feel rejected or unpopular. Just grit your teeth and keep going, and eventually your discomfort will disappear.⁴⁵

This section maps out the timing and intensity of influences in your life that absorb your interest on a daily level, profoundly affecting everything, from your work to your family life. These influences constitute your emotional growth during the course of the year, and the main themes are:

- a time of good luck and happiness in your family life, when you gain a deep appreciation of your heritage and roots.
- a time of challenges and responsibility in relationships, requiring self-sufficiency and restraint.
- a time of peace and pleasure, when you work on consolidating your emotional foundations and increasing material security.
- a time when family priorities start to recede as you emerge from the nest to make a greater impact with your personality.

Mental Development

EXPRESSING CREATIVE TALENTS

Gaining skills through education and other forms of training is a major ingredient for success, both professionally and in relationships. Through developing your communication talents you can make contacts and build networks which facilitate progress.

With Mercury in your birth chart in Gemini and in the 7th House this relates to your effervescent and insatiably curious thought processes, and you evoke similar qualities in your relationships, where communication is your highest priority.

During the age of 81 your mental focus is on managing resources. You are concerned with what has solid value... what can weighed and measured. You adopt a practical and realistic approach and limit yourself to facts and concrete issues. Administrating finances is important now, as well as giving value for money.⁴⁶

Your mental abilities are channeled into your career goals to a marked degree. Success comes through successful networking and through a conscious use of such communication aids as telephone and mail. This facilitates anything to do with business, travel and sales.⁴⁷

Your mental focus is on how to broaden your mind and express deep insights about the nature of life. Your natural wisdom comes out, either through extra studies, contact with a mentor, or travel.

Certain challenges arise.

There are many mental challenges during the course of the year that tend to undermine your mental confidence. Only by planning and application can you overcome the obstacles that present themselves. Take criticism seriously and work hard on the details, but don't be oversensitive – with a little determination you can pass the test.⁴⁹

Some factors help.

Your investigative powers are at a peak during the course of the year – somehow you are able to pierce beneath the surface to find out what is hidden beneath. Your psychological abilities and interests are stimulated; you get to the roots of important issues and find ways to create a positive transformation.⁵⁰

You are busy during the course of the year – you like the excitement and the pace. Whether you have to deal with several issues at the same time, rush off somewhere, or work in a competitive environment, this is no problem for you. You are not afraid to speak your mind either, even if others may find you pushy or provocative.⁵¹

The influences described below will bring additional opportunities and challenges in the field of communication. By rising to educational challenges and improving communication skills, you can add to your skills and capabilities.

Mental disorientation

This is a period when mental processes subtly change as you become more receptive to intuitive processes and subliminal input. The kind of logical and determined reasoning that helps you pass examinations and do solid and constructive work is undermined now, because you long for creative stimulus and the magic of art, music, film and poetry. It is difficult to find the motivation to do routine tasks, and it can also be difficult to communicate clearly. Inspired thoughts and ideas permeate your consciousness, but it is not easy to get them across. There can be misunderstandings with your peers now, and disappointment with the lack of imagination you feel in the world around you. This mentally disorienting period stems from a trend that lasts from February 2021 to February 2024 ultimately awakening creative and spiritual talents that have been latent. Sadness or confusion connected with siblings or neighbors makes you aware of the fact that some circumstances are beyond your control.⁵²

Mental discipline

The period from February 2022 to March 2023 is a time when you rise to the challenge in connection with education, communication and developing your intellect. This is the time to dedicate yourself to learning, and to overcome any reservations about your mental abilities. Planning, practice and determination are all that are needed to get your message across. Recognition and success do not come easy – if it did you would not have to work so hard, and hard work, at least mentally, is what life is about right now. You can work on and overcome any weaknesses in connection with the way you relate to others if you put your mind to it. This is an excellent time to study and write, even if there is an element of repetition or boredom in it. The more you discipline yourself, the better you get.⁵³

Expansion of contacts and mental skills

The period from March 2023 to May 2023 is a time of success for you in all your mental endeavors, and this is a major contributing factor to personal happiness and satisfaction. Travel is favored, and brings extraordinary pleasures. Great teachers appear and expand the boundaries of your understanding. You make progress in leaps and bounds. Anything to do with foreign cultures and languages is crowned with success. Your knowledge base and intellectual understanding peak, and people are eager to hear what you have learned. Relationships with people of like mind, and true partnerships, are favored at this time, with agreement easily being reached on a shared agenda.⁵⁴

Your mental evolution is a product of the people you encounter during your life, who evoke certain qualities in you, as well as your contact with institutions of learning and educational media. The lessons you learn give depth and breadth to your personal message to the world. This year new opportunities arise.

During the course of the year after this one there is an important influence which you are very likely to feel already during the course of this year. Perhaps nothing happens right now, but you will sense the following theme developing, even if it is early days:

Applying communication skills

If your birth time is precise the period around June 2023 is a favorable time for both career and family matters. On the career front you learn new skills and how to apply them – this can be in business, sales, marketing or any for of teaching and communication. You are also likely to have the good company of colleagues who work happily together with you and are a good influence. On the family front this is a great time for gathering the family together and talking, for children generally and for establishing a good environment for work at home – a study for example. Your natural teaching abilities come to the fore, and

the lines of communication are opened. It is a good time for working with siblings.⁵⁵

The influences described in this section challenge you to develop intellectually, socially and in relation to others. Of all these influences, in terms of the enhancement and development of your mental skills the most significant will be:

- a time when you can experience some disorientation as you lose interest in routine and boring matters and search for satisfaction in creative and spiritual pursuits.
- a time when you rise to a mental challenge and develop your knowledge and communication skills through hard, concentrated work.
- a time when you have the great good fortune to expand your sphere of interest through travel, a mentor, or study.
- a time when your connections and communication skills help you advance in your career and domestic life.

JUDGING WITH THE HEART

Your need for relationship is very much dependant on your tastes, and early family experiences of bonding. These factors determine whether you feel attraction or not, or whether you are simply indifferent. People of similar tastes are instinctively attracted to you, as you are to them, and this is the basis of personal harmony in your relationships.

With Venus in your birth chart in Gemini and in the 6th House this relates to your need to have a mentally stimulating love-life, which you will express harmoniously at work, manifesting considerable people skills.

In relationship matters you are willing to act spontaneously and impulsively during the age of 81. When you get potential partners in your sights you are willing to fight for them – indeed a bit of competition actually stimulates your appetite. Such single-mindedness can lead you into dangerous territory, but during the course of the year winning is everything, so you are not receptive to those advising caution. Fools rush in where wise men fear to tread.⁵⁶

Relationships during the course of the year may be found or nurtured when traveling, in distant places, or in a learning environment. You want to share lofty ideals with your partner and have a common ground intellectually and spiritually. Moral or ethical considerations are important to you when making your romantic choices, as well as the opportunity to expand your horizons.⁵⁷

This is an excellent time for expressing your ideas and values – especially on the creative front. Socially too you encounter people you warm to, who bring a touch of romance or beauty into your life. There are happy events connected with siblings, perhaps connected with making cultural trips together, and on the educational front too, there are pleasurable experiences with fellow students.⁵⁸

Certain challenges arise.

There are undercurrents in your relationships... perhaps an element of secretiveness or the taboo, with strong erotic passions. You are in a process of intense and passionate transformation which brings out the shadow side of relationships. Your position can be undermined because your affections are not reciprocated, or because of secretive liaisons. This could be the time to definitively eliminate past bonds.⁵⁹

Some factors help.

You are happy to make long-term commitments now, and good sense pervades the important relationships in your life, leading to sound investments and consolidating in all areas. You are attracted to mature people and see beyond the frivolity of romantic love to more practical concerns. This can lead to professional

advancement.60

There are other major changes affecting relationships and values at this time, and the influences described below will bring opportunities to modify your need for others, and ultimately develop better ways of relating authentically.

Good fortune in love

There is a period of success for you both as regards your economy and your relationships from May 2022 to April 2023, and this brings a blossoming of confidence about your attractiveness and value as a person. If you are looking for romance, you will surely find it – especially if you travel to a romantic place. This is a good time for relationships with people from cultures you admire. You are particularly attracted to wise and cultured people who can teach you something. Generally you can afford to expand, spend more and really appreciate what life has to offer. Now is the time to both harvest and enjoy the fruits of efforts that you have made in the past, and to generously share your good fortune with those you love.⁶¹

Quite apart from the specific changes that come at the age of 81, you now reach a stage in the process of your evolution in terms of relationship that enables you to integrate new values in your life through encounters with individuals or groups where you form a bond of one sort or another.

Last year the following influence peaked, but it still has a very important effect at the age of 81. You are still digesting the changes in this area, and beginning to integrate them in your life.

Happy and fruitful

You enter a most fortunate period in your emotional life around March 2022 that enables you to create loving and lasting bonds. This is extremely favorable for family matters, and excellent for children. Similarly this is a time when you can create a happy home where all the family can grow and develop optimally. Deep in your heart you feel a well of love which invokes in you a need to protect and nurture. People are drawn under your wing and find shelter and comfort; likewise you feel the need for a partner or children on whom you can shower your love. Socially you are drawn to groups who need the kindness you can provide to function, and at work it can seem like one big happy family – or if it doesn't you will hurry home to those who appreciate what you have to offer now.⁶²

During the course of the year after this one there is an important influence which you are very likely to feel already during the course of this year. Perhaps nothing happens right now, but you will sense the following theme developing, even if it is early days:

Relationship misunderstanding

Around July 2023 it seems that no matter how you express yourself, you cannot share your values with someone who in reality simply does not embrace the same values as you. There can therefore be fundamental differences of view, and these differences can have repercussions both financially and in family relationships – particularly for example with a sister. Care needs to be taken because you can be outsmarted in discussions about material things, intellectual property or social bonds. Advisors may not be able to protect your assets. Your resources should not be squandered. Listen to your heart to find what is really of value to you – don't get sidetracked by clever persuasion. This is also a time when you can easily be led astray romantically and several choices may be open to you.⁶⁴

Your ideas and thoughts are centered on partnerships and relating skills. The mental evolution process you are now going through will bring new partnership developments and ultimately improve communication skills in this area.⁶⁵

The influences described in this section will all have a significant effect on the way you relate to the world.

In terms of your material values and matters of love, the most important of all these influences will be:

- a time when you can enjoy the good life. Experiences with friends and lovers, especially when traveling or experiencing culture, boost your confidence and self-worth
- a time of domestic bliss, when your heart overflows and draws the family close to you.
- an experience of not being able to persuade another of values that are crucial to you.
- competitiveness in love and the tendency to follow your romantic impulses.

OVERCOMING LIMITATIONS

Nothing is achieved in life without the force and determination to go for what you want. There are battles to be won and obstacles to be overcome, and this means being able to assert yourself, and to mobilize your courage to face challenges and overcome resistance.

With Mars in your birth chart in Pisces and in the 2nd House this relates to your need to work with the intangible, and turn your back on the world's competitiveness, and you channel much effort into asserting your worth and improving your material situation.

During As regards personal drive the age of 81 your fantasies are especially seductive, and there is an urge to go for your dreams. Still, it is unlikely that you are clear in your direction, and this can mean that you lose your way or get confused. It is a good idea to work on your personal creativity and perhaps your spiritual interests. Guard yourself against illusion.⁶⁷

Your energy and will is channeled into deep and cathartic emotional areas. The main battlefields are in your intimate life, psychologically and sexually, but there is also an emphasis on fighting institutions to ensure greater economic security.⁶⁸

This is a year when normal group relations tend to be shaken up, perhaps because you are restless and uncertain about what direction you want to go in. You may have to deal with a troublemaker, but perhaps such a person might inspire you to action.⁶⁹

You are empowered by the following.

There are chaotic circumstances connected with getting done what you want to do, partly because some of what you currently do feels boring and meaningless, and partly because you long for something magic that fulfils your dreams. This could lead you astray – especially in your sexual life – but you could discover just those talents your long for.⁷⁰

There is ebullience about you, and there are periods when your confidence peaks and you have all the energy you need. This can give you a strong appetite to go and get what you want, whether professionally or erotically.⁷¹

Some factors help.

By accessing the deep inner forces that have long remained hidden, you discover an amazing surplus of strength to perform superhuman tasks. This is an excellent year for taking a failed enterprise and transforming it. On a psychological level you purge old demons and emerge re-energized.⁷²

There are other powerful influences at this time, which bring both challenges to your autonomy and independence, and opportunities for leadership and self assertion. The influences described below bring out your survival abilities and evoke a fighting spirit that can ultimately empower you.

Developing willpower

During a period that is likely to last from February 2023 to December 2024 there will be many difficulties and challenges that undermine your willpower and confidence in your ability to win through. Encounters with dominating men and male authorities who flaunt their power because of insecurity can put you in the pressure cooker. The workload in your career can be daunting. Sexual problems can suddenly come on the personal agenda. It is at this time – when the going gets tough – that the tough get going. A good place to start is on the body, and fitness training of one sort or another can help build up personal confidence. On the work front, perhaps it is better to be more self-disciplined and to put in longer hours, knowing that this can be a long-term investment for the future. Sexually this is the time to get back to basics, to discuss insecurities, to consult the manual, and in this way untangle the complex emotional issues that affect performance. The structure and training you put in place now will create the foundations for a new future where you can manifest your full strength and power.⁷³

Quite apart from the specific changes that come at the age of 81, you now reach a stage in the process of your evolution in terms of your work and drives that enables you to discover new forms of empowerment and to harness your energy in new ways.

During the course of the year after this one there is an important influence which you are very likely to feel already during the course of this year. Perhaps nothing happens right now, but you will sense the following theme developing, even if it is early days:

Masculine style

This is the culmination of a period during which you learn all about self-assertion and express new-found strength and power in your life. If your birth time is precise, this culminates on September 2023. Your fighting spirit is awakened, and you learn how to hold your own in the company of other powerful men. And your attractiveness to the opposite sex increases considerably. A sense of strength and empowerment can bring major changes to your lifestyle, which means you can impose your agenda on the world and take on a series of challenges that serve to build up your muscle both mentally and physically. You learn that the best compromises are made from a position of strength. With greater energy at your disposal, you embark on pioneering activities and win many a battle.⁷⁴

The influences described in this section will bring changes in the way you strive for achievement. Of the many influences affecting your energy, sexuality and assertiveness this year the main areas to be aware of are:

- a time when you come under tremendous pressure that initially undermines your strength. You subsequently develop the determination and willpower to overcome obstacles.
- a time when you integrate an assertive and confident style into the way you live your life and interrelate with others.
- a strongly stimulated imagination that is good for creativity but can lead you astray.

CHANGE THROUGH FORCE MAJEURE

The influences mentioned so far in this analysis have an effect on your psychological evolution and fate which is strictly personal. There are other influences on your life based on your relationship to the collective, which can be just as exciting and stimulating for you, even though they may not evoke dramatic personal change.

Transformative change

This period of your life is a rite of passage when you may be inclined to transform your life in quite a drastic fashion. If you are the kind of person who plays safe, this might just be a minor psychic disturbance for you, but if your life is characterized by periodic radical change, this might just be when you use your ejector seat and jump out over a new landscape. You are drawn to living on the wild side, or you encounter groups that shake up concepts and ideas which you have always felt safe with. There are times in a person's life when fate can step in and shuffle the pieces around, and this might just happen for you in the period that spans January 2021 to October 2024. If it does, then you awaken fresh and reborn, even if the structures around you are no longer recognizable.⁷⁶

Spiritual awareness

In this period you have reached something of a milestone – a milestone that reminds you just how fluid and unstructured life can be. This is a time when you learn the lesson of impermanence; all structures will in time dissolve, and when that time comes the key is surrender and acceptance, rather that fighting to keep back the waves. You learn also that sorrow is a constant human companion, as ubiquitous as joy, and it is the driving force for spiritual growth and purification. This period of enhanced spiritual awareness is related to a trend that lasts April 2021 to January 2025 and it serves to make you aware of your dreams and longings, and attune you to universal forces that guide the human spirit.⁷⁷

Revolutionary inspiration

In this period you can find yourself getting swept up in collective events which – if you choose to get involved – can be both exhilarating and bring revolutionary developments in connection with interest groups around you. This is a time when your imaginative powers can bring effervescent inspiration and be an engine for radical change, especially if personal development or spiritual growth are important to you. It is also possible that your peer group gets caught up in a vision for the future whilst you remain a spectator. Whether change is possible or realistic is another question, as the inspiration for change is very much a consequence of a collective trend or media influences which are more dream than fact. This period, which stems from a trend that lasts April 2022 to December 2025, can bring a sense of euphoria and hope, and a belief in the full potential of mankind.⁷⁸

During the age of 81 you are in a phase of your personal evolution where you are laboriously negotiating the complexities of the interpersonal relationships that are the key to success and happiness in life. Relationships demand intimacy and authenticity as you explore the shadowy realms of emotional give and take, sexual union, and the anxieties of dependence. Materially you struggle to find the key to security and survival. But above all this is the time to share what you know and seek out people who can enhance your knowledge so that you can enlighten others about the way you see the world. To some extent you emerge from the chrysalis, which has been nurtured by intimacy, and take wing to disseminate your own personal wisdom to the world.

Seen from another viewpoint, there is a purposeful evolution in your life, and each of the events that arise can be seen as milestones on the journey of your soul. There are some fields of your experience which you are all too familiar with, and perhaps you need to relinquish your attachment to them. Other areas of experience present new and interesting challenges for you soul, and require total immersion.

The primary evolutionary focus in the year is on personal creativity connected with things like children, play and self-expression. Deeply significant events will take place in these areas, turning your focus in on yourself. Equally significant events connected with your social life and general involvement in society will teach you to detach and release your desire for too much social involvement, which might cause you to lose focus on the personal.⁷⁹

The collective influences described above are very much related to the generation of which you are a part, and opportunities now arise to capitalize on trends that your generation will resonate to. The most important of these are:

- a time when there may be changes that you are not in control on. You can hang on to the carousel or let it launch you into space.
- a time when you learn to accept circumstances that are the result of the interplay of higher forces, and attune yourself to spiritual factors.
- a time when you can get caught up in a wave of idealism that can both bring personal growth and involvement in a great collective event.

The influences described in this report are based on planetary cycles, transits of the outer planets and progressions of the inner planets in an integrated description which also takes into account the major factors in your birth horoscope. Thousands of factors are taken into consideration, making this report completely unique to you for the next twelve months. Rather than make specific predictions, we have tried to describe how you can make the most out of the many changes that are taking place. By defining what you really want, and going for it, you can weather the storms and currents described in this report and come safely to the destination that you are aiming for. It is in this context that the major events of this year should be seen.

Some of the themes from this year will continue into the next year, and some completely new themes will arise. Looking at the three most important events at the age of 82 you can expect change in the following areas:

There are a number of unpredictable developments that shake you up and make you aware of limiting dependencies. Relocation or much travel can unsettle your domestic life, but you learn to travel light, without carrying the heavy weight of the past on your shoulders.

You find yourself confronting limitations and restrictions that have been imposed on you from the outside – and from your own inner watchdog. Where your freedom has been circumscribed by outdated rules, you will cast off the chains.

Assuming your birth time is accurate, favorable trends in your career and family life bring advances, travel and the utilization of new skills, especially in the field of communication. Expect some clever people to support you.

These events - both good and bad - can be seen as a treasure chest for the personal journey of your soul. Every event that arises has meaning for you and is a result and consequence of previous actions. If you are able to see the challenges that arise as opportunities for constructive change, then your growth will be rapid, and you will be able to truly appreciate and enjoy the many positive events that also arise during the course of your year.
